## Displacement

Displacement is an aggressive move with full-bodied candles.

This can form in a single candle or in multiple candles.

Generally, displacement candle(s) have FVG present.

# Market Structure Shift

When displacement occurs over or below a swing high or low, a market structure shift happens.

*Having bodies close over/below previous structure is preferred.  
A stop raid before the MSS is preferred.*

A market structure shift (MSS) indicates a change in trend from bullish to bearish or bearish to bullish.

## Higher Time Frame Level

It is important that a higher time frame level is engaged prior to the lower time frame market structure shift.
